Turn Back the Hands of Time with Anti-Aging ART Skin Care System

Wake up to a fresher face, like thousands of other happy men and women who are loyal customers of Young Living's ART Skin Care. After just a few weeks of applying ART's light, silky lotions, many see a new glow, more uniform skin tone and even diminished brown spots.

You, too, can look forward to smoother skin, diminishing fine lines and firmer, more elastic skin because ART Skin Care really works - without harmful chemicals. What makes ART Skin Care uniquely effective is its combination of new technologies, the finest European ingredients and therapeutic-grade essential oils.

ART Skin Care Can Help Repair Aging Skin at the Cellular Level

Many of the signs of aging we see in our mirrors are caused by exposure to harmful chemicals and damaging sunlight. The resulting DNA damage becomes visible as age spots, uneven skin tone and wrinkle formation. Persistent DNA damage is the primary cause of aging on the skin.¹

Latest DNA Recovery Technology Found in ART

ART utilizes two innovative enzymes and a proprietary blend of pure essential oils, all of which can enhance DNA recovery and reduce premature aging of skin.

- Photolyase enzyme uses light to renew damaged DNA. As little as 30 minutes of moderate light has been shown to restore up to 60% more DNA damage than untreated human cells.² Found in ART Day Activator.
- Endonuclease enzyme uses the body's energy to cut damaged DNA segment, reproduce the original segment before damage and insert the new segment back into the correct place in the cell's DNA structure. Found in ART Night Reconstructor.

• Essential oils of

Frankincense and **Sandalwood** support and sustain the skin's ability to renew DNA.¹ Jaime Matta, MD tested these two oils for their ability to repair the DNA in our bodies. His tests results? **Sandalwood** showed up to 66% increase in DNA repair while **Frankincense** showed up to 36%. These essential oils are found in all three ART Skin Care components.

ART Fights Aging with Revolutionary Collagen Booster

Collagen gives us the firm, elastic skin of youth. Over time, that healthy, dense collagen layer becomes thinner and less uniform as our skin cells lose their ability to produce collagen. As a result, our skin becomes less resilient and fine lines and wrinkles appear.

Younger skin in just six weeks

"I'm thrilled! After just six weeks, my neck and jawline are visibly tighter. I have fewer wrinkles and a healthy glow." Janet McBride, Goodyear AZ

A•R•T Makes a Visible Difference

Wrinkles vanishing after just six weeks! Left, before. Above, after.

ART Has Anti-Aging Collagen Booster

ART fights back with Anti-Aging Peptide Complex, featuring Matrixyl™ 3000. This ingredient can increase collagen and elastin production by a factor of at least 200%, which can reduce the look of fine lines and improve elasticity.²

To boost Matrixyl's performance even more, ART has combined it with Vitamin C to produce a **50% greater increase in skin matrix regeneration** than the Anti-Aging Peptide Complex alone.¹

Vitamin C may have additional benefits for aging skin. In a published report, Vitamin C (topically applied ascorbic acid) demonstrated significant improvements in clinical, subjective and photographic assessments of wrinkling, roughness, laxity and sallowness. Researchers found a 73.7% improvement in optical profilometry image analysis after three months.³

Get Started on Fresher Skin Today - Just Three Easy Steps

Gentle Foaming Cleanser - One puff of ART cleanser gently washes away oil and makeup, leaving your face clean, soft, hydrated. Men will like the barely-there scent of **Frankincense, Sandalwood, Melissa and German chamomile** essential oils. Natural vitamin E and green tea leaf extract provide antioxidant power.

ART Day Activator - This featherweight lotion does heavyweight work every day to repair your DNA and restore your skin. Immediately after cleansing, massage Day Activator over face and neck. This water-based lotion absorbs quickly, is perfect under makeup and sunscreen.

ART Night Reconstructor - Contains Endonuclease enzyme that uses the energy in your body to repair DNA while you sleep. This medium-bodied formula contains collagen booster Matrixyl 3000, nourishing wolfberry seed oil plus rich moisturizers for maximum hydration.
